A large, stylized graphic of the words 'MERRY CHRISTMAS' in red. The letters are thick and have a decorative, calligraphic feel with swirls and flourishes, particularly in the 'R's and 'S's.

Ho ho ho... it's that time of the year again!

Welcome to the final edition of The Oracle for 2013. On behalf of everyone at Innes Corporation I would like to wish you all a very happy, safe and peaceful time over the festive season. Thank you for your support over the past 12 months and we look forward to working with you throughout 2014.

2013 was certainly a year of significance for Innes with new product launches, trade shows, major export shipments and an office relocation thrown into the mix. Your patience and consideration during some of the more hectic times was greatly appreciated.

Our last day of trading for this year will be Monday 23rd December and the office will re-open for business on Monday 6th January 2014.

Merry Christmas and I hope Santa is kind to you all.

Nautel To Deploy 31 Transmitters Throughout Australia

Australia's **Southern Cross Austereo** has placed an order for 31 **Nautel** VS, XR, and NVLT transmitters, which will be used throughout the country to replace aging equipment. Power levels are from 300W to 10kW.

National Radio Engineering Manager Steve Adler said "Southern Cross Austereo is delighted to be partnering with Nautel to replace our existing broadcast transmitter fleet. From 300 Watts to 20 kilowatts, Nautel has a solution to cover all our AM and FM transmission needs."

"We're very pleased to work with Southern Cross Austereo and our partner in Australia on this project," said John Abdnour, Regional Manager/ Asia-Pacific for Nautel. "SCA is joining hundreds of broadcasters around the world who rely on feature rich and efficient Nautel transmitters."

Steve Adler, National Radio Engineering Manager, SCA with Nautel's Asia-Pacific Regional Manager, John Abdhour

For enquiries on the Nautel range of AM, FM or TV transmitters please call (02) 9987 0499 or email sales@innescorp.com.au

Out and about in.....

Townsville, Far North Queensland

Far North Queensland... December... in a word... HOT! Despite the humidity and temperature, it was great to have the chance for a pre-Christmas catch up with some of our Townsville broadcasters last week. Many thanks to the guys at Triple T community radio, Broadcast Australia Field Services and 4TO-HotFM for taking time out of their busy schedules for a visit.

A milestone for Innes Corp

Radcap production reaches 1000!!

The recent development our new DAB+ multi ensemble capture card marks a significant milestone for Innes Corp with Radcap number 1000 rolling off the production line.

Senior Development Engineer, Dr Jeff Pages has been the brains behind the Radcap evolution from the earliest incarnation of a 2 channel mono FM card to the latest design of a PCIe DAB+ multi-ensemble version.

The elegant design and feature set of the new DAB+ card make it unique in the broadcast market and the capability for remote expansion is a huge benefit where new DAB+/DAB services are being progressively rolled out.

The new cards are now in stock ready for shipping. For more on the features and technical details please [Click here](#)

For further details or pricing information on the new multi-ensemble DAB+ card please call (02) 9987 0499 or email sales@innescorp.com.au

Organise your 2014 Demo Now!

ORBAN Opticodec-PC 1511e Streaming Encoder

The new plug and play streaming encoder system from Orban contains an Intel I3 Processor, 1U rack mount PC, Windows 7 Professional with an Opticodec 1211e (card and codec) included. For multiple streams a PCIe Expansion Chassis can be added to accommodate up to 8 x 1101e/1211e PCIe cards.

If you would like to organise a trial demo of the new Opticodec, please call us on (02) 9987 0499 or email sales@innescorp.com.au

NAUTEL VS300 FM Transmitter

Since the launch of Nautel's VS series transmitters, more than 1900 units have been shipped world wide and we're proud to say that over 50 of those have so far made their way to Oz. From major networks to small community broadcasters spanning the country from far north Qld to the southern suburbs of Perth, the VS series are providing Aussie broadcasters with outstanding features, advanced remote control capabilities, reliability and value for money. If you would like to test drive the VS300 for yourself, please call us on (02) 9987 0499 or email sales@innescorp.com.au
